| <p>1. The formulation of HCR20 risk assessments in the secure services should be aligned to best practice principles and there should be a quality assurance structure to audit the quality of risk formulations and management plans and ensure they are in line with HCR20 Version 3 Guide</p> | <p>Patient and team are aware of risks and the plans in place to these mitigate risks.</p> <p>The risk management plans are appropriate and proportionate and reflect current risks</p> | <p>Identify a lead from each division to develop best practice guidelines including peer review process in line with SA 10 policy. The best practice guidelines will include details about the process to ensure risk assessment and management is a dynamic process including how patients will be engaged and involved in managing their risks.</p> <p>Baseline audit of quality and accuracy of HCR-20 and related risk management plans.</p> <p>Introduce electronic recording system to monitor HCR-20 completion and update compliance.</p> <p>Review of Trust Policy SD 10 to ensure it meets</p> | <p>March 2017</p>       | <p>Divisional Psychological Services Leads</p> |            | <p>The psychology teams from both Secure Division and Specialist Learning Disability Have had an away day on 15<sup>th</sup> February to agree best practice guidelines which includes clear processes to engage with patients and care teams to ensure risk assessment and management is a live process.</p> <p>The guidance will be available for service consultation by end Feb 2017. The date to complete this action has been amended to reflect the level of detail and consultation involved in this process.</p> <p>There is a plan with clear trajectories to ensure all current risk assessments are in date in accordance with service specifications by 10<sup>th</sup> March 2017. This is being monitored on a weekly basis. The electronic system for ongoing monitoring is not yet available. It is expected to be available by the end of March 2017.</p> <p>The Trust policy is under review, being led by Richard Whitehead for local services and Neil Jackson for SD and SpLD. It will be available for wider service consultation by end March 2017</p> |

|  |  | requirements for each Division  |   |  |  | <p>June 2017 Update: Best practice guidelines have been agreed and are in practice. The impact and effectiveness of these guidelines will be evaluated and formally reviewed at end of year.</p> <p>In Secure and Specialist Learning Disability Divisions HCR-20 risk assessments have been reviewed and updated in line with policy requirements. Systems are in place to ensure ongoing improved performance is maintained and reviewed at divisional governance meetings.</p> <p>The updated Trust Policy SD 10 is due to be ratified at Trust Policy Review group in July 2017.</p> |
| <p><b>2.</b> The planning of victim safety in partnership with individuals concerned, especially where this involves a family member or partner, must form part of the core risk assessment and treatment planning</p> <p>On-going contact with family members or partners must form part of the core risk assessment and care planning by the care co-ordinator</p> | Identified and current potential victims are aware, have been involved and have knowledge of the risks to themselves and what plans are in place to mitigate these risks | <p>Review legal guidance about remit of new victim safety policy</p> <p>Roll out trust wide Implementation plan for new policy which should include clear processes for the involvement of potential victims.</p> <p>Audit of current practice<br/>Agree a programme of quality audit of policy standards</p> | <p>December 2016</p> <p>March 2017</p> <p>December 2016</p> | <p>Identified Lead from each division</p> <p>Head of Forensic Social Care/Nominated Officer for Safeguarding</p> |  | <p>Victim's policy has been agreed and is now ratified</p> <p>The implementation plan is in train, more detailed update will be provided in next action plan update</p> <p>Actions required from audit of practice in FOS team had been completed and shared and signed off by SD governance committee.</p> <p>June 2017: implementation plan is now complete, awareness sessions are ongoing and audit programme has been agreed in line with Trust audit programme, audit tool has been developed, next audit due at end of quarter 2</p>  |
| <b>3.</b> Where there is a question of responsibility for the welfare of the child, specific focussed risk assessments must be conducted in partnership with children's agencies   | Risk to identified children are known, have been assessed and plans in place to mitigate risks   | Review current child welfare procedures in conjunction with partner agencies to ensure risks to children are robustly   | March 2017  | Deputy Director of Nursing & Quality<br>Head of Social Care  |  | Named Nurse has reviewed and updated Child safeguarding Policy and has reviewed child safeguarding procedures in conjunction with CCG Designated Nurse for Safeguarding including assessment   |

|   |  |  |               |  |  |   |
|---|--|--|---------------|--|--|---|
| and other statutory agencies with respect to assessing and managing any potential risk towards the child  | that are reviewed and monitored  | assessed and managed<br><br>Clear understanding and compliance with the legislative framework<br>Is embedded in practice   |               | – Strategic Lead<br><br>Named Nurse Safeguarding Children                |  | protocol at each stage of access into the service e.g. A&E liaison. Wording on Epex is to be amended at assessment stage to ensure more robust consideration of Child/Parent needs particularly impact assessment during mental health crisis. Training roll-out for Child Safeguarding will ensure quality checks against improved knowledge and application to practice for all front-line staff. Quality Standard checks will be formally reviewed via quarterly Safeguarding Strategy Group and Named Nurse supervision with CCG Designated Nurse. The Named Nurse will also work in conjunction with and be supported on the above implementation and practice application by Barnardo's lead expert practitioner. |
| 4. There should be a robust risk assessment of lone workers in the community, including any pregnant staff and risk management plans applied                                  | Individual staff can articulate risks and are aware of plans to mitigate risks                                   | Audit of practice in accordance with Lone Worker policy and implement actions arising from audit recommendations   | December 2016 | Director of Patient Safety   |  | Complete<br><br>Policy in place including processes to monitor compliance   |
| 5. There should be a programme of training for Section 12 doctors and AMHPs on risk assessment in forensic patients focusing on both the nature and degree of mental disorder | Section 12 Doctors and AMHPs have knowledge of and can articulate forensic component of mental health assessment | Training and awareness sessions at Trust AMHP forum following a training needs analysis to scope training requirements.<br><br>Share this recommendation to address Section 12 training with Liverpool CCG<br><br>Ensure this recommendation is included in Approved Clinician training in Trust | March 2017    | Social Care Professional Lead<br><br>Clinical Lead Medium Secure Service |  | Trust In house training programme is now in place and is managed by Emad Lilo<br><br>NHSNW are currently reviewing the Section 12 approval / renewal training they commission across the region and consider how this can be improved to address this issue.  |
